

Anti Static BS2050 Black 20 Bar Air Hose

Extruded construction all rubber anti-static hose meeting the requirements of BS2050:1978 with conductivity between liner and cover. It is used widely in the offshore oil and gas industry where maintenance using compressors and air driven plant and equipment in a spark free environment is crucial.

Durbale all rubber constructed hose, fully complying with the requirements of BS 2050 specification for 20 bar working pressure.

Suitable for all compressed air applications

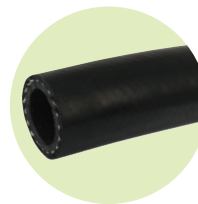

Suitable for use where anti0static properties are preferred e.g. refineries, offshore oil & gas applications

Temperature Range: -20°C to + 80°C

Construction:

Lining: Electrically Conductive SBR rubber

Cover: Smooth black SBR rubber
