

C9000 Advanced Quick Acting Couplers

ISO 6150B PROFILE SAFETY

- The C9000 couplers comply with ISO 4414 & EN 983 Safety standards
- ISO B6
- Flow Rate: 44 cfm

They feature:

- Very high flow and extremely small pressure loss, annual cost savings of 60%
- Perfectly controlled sealing
- Lightweight, high impact composite material resistant to shocks and scratching with improved hand grip
- Excellent mechanical strength: extending lifetime performance and reliability
- Virtually effortless connection and disconnection
- Superior energy efficiency
- Tested to 10 million cycles

Temperature Range:
-20°C to +60°C

Working Pressure:
0 to 16 bar

Fluid: Compressed Air

Couplings

Male, BSPP

LE-9401U06 13	1/4"
LE-9401U06 17	3/8"
LE-9401U06 21	1/2"

Male, BSPT

LE-9405U06 13	1/4"
LE-9405U06 17	3/8"
LE-9405U06 21	1/2"

Hose Tail

LE-9421U06 06	6
LE-9421U06 08	8
LE-9421U06 10	10

Female, BSPP

LE-9414U06 13	1/4"
LE-9414U06 17	3/8"
LE-9414U06 21	1/2"
