

Low Noise Level Nozzle, Plastic, BSPP Inlet

- Pressure range (static): 0 to 12 bar
- Temperature range: -20°C up to +50°C
- Connection: female thread ISO 228-G 1/4"
- Nozzle: with sintered metal insert, M12 x 1.25

Materials

- Body: GF33PA6
- Actuating lever: GF33PA6
- Valve: POM
- Seals: buna N
- Spring: AISI 301
- Connection: brass
- Nozzle: aluminium, with sintered metal insert

Description

The blow gun AF-13 has a body made of impact-resistant thermoplastic, offering lightweight and good ergonomic properties. Low noise level, thus extremely good blowing effectivity.

Versions / Special Equipment

Extension tube in other lengths, other connections.

Test values		
Flow rate:	P = 3 bar	160 l/min
	P = 6 bar	290 l/min
Working strength:	P = 3 bar	13 N
	P = 6 bar	16 N
Noise level: (at 1m distance)	P = 3 bar	59 dB(A)
	P = 6 bar	64 dB(A)
Weight:	86 g	
Safety factor:	at least 4 times	
Burst pressure:	at least 48 bar
