

'PC' Compression Nut for PVC Covered Copper Tube, Imperial

Wade

Features & Benefits

- A range of brass compression nuts with BSP parallel and metric parallel female threads
- Designed for use with imperial and metric outside diameter PVC covered copper and nylon tubes
- This original Wade design prevents atmospheric corrosion and contamination within the joint and also protects the ends of the outer PVC cover from damage
- Specifically designed for use in combination with Wade bodies and compression rings, we cannot recommend interchangeability with other brands

| Part No | Tube OD | PVC Cover OD | Thread Size & Type | L Length | H Hex A/F | P Abutment | O Ring |
|-------------|---------|--------------|--------------------|----------|-----------|------------|--------|
| WADE-PC1008 | 3/8" | 1/2" | 3/8" BSP | 1.093" | 0.82" | 0.562" | M310 |
| WADE-PC1011 | 1/2" | 5/8" | 1/2" BSP | 1.203" | 0.92" | 0.625" | M312 |
