## J1800 6 SMD LED USB Rechargeable Work Light

Six SMD, USB rechargeable, six position, foldable, 180 degree cam work flood and torch light, complete with hanging hooks and magnets for complete operator versatility.

### Features

- Six SMDs, housed behind an innovative optical lens, produce an exceptional 90 degree floodlit work area of 350 lumens
- One W high powered flashlight/torch end light with filtered lens produces an 80 lumen directional beam
- Lithium-ion rechargeable battery ensures longevity of battery life and an operation time of 3-7 hours
- Three powerful magnets, two on the back and one in the base allowing for hands-free operation
- Six position positive cam allows the lamp to bend through 180 degrees
- Two 360 degree hanging hooks for use when alternatives to the magnetic function are required
- Robust, impact resistant and ergonomically designed lamp housing with wrist lanyard
- Supplied with 240V and USB charging leads
- Built-in automatic charging cut off
- 12 month warranty

### Technical Data

<b>Flux</b>	Main light: 350 lumens	End torch: 80 lumens
<b>Dimensions</b>	250 x 55 x 30 mm	
<b>Materials</b>	Primarily ABS plastic	
<b>Battery</b>	Lithium-ion 3.7V DC, 2100mA	
<b>Charging Voltage</b>	5V DC	
<b>Charging Time</b>	5 hours	
<b>Operation Time</b>	Minimum 3 hours	Maximum 7 hours
