

Powder Coated Series: Hose Reels

Kiowa AV Slow Retraction, Spring Rewind Powder Coated Reel

The Kiowa spring rewind safety series hose reel in 304 grade stainless steel. The adjustable, slow retraction safety feature takes spring rewind hose reels to the next level in hose management and is fast becoming the new industry standard with health and safety. The superior twin pedestal design and quality component parts provide long term, trouble free service. The adjustable full width roller guides prolong the hose assemblies working life whilst the ribbed side arms give ultimate rigidity during pull out and hose retrieval. Durable nylon hub assemblies allow the main drum to rotate straight and true with adjustable guide arms giving the user various mounting positions. Working pressures are standard up to 3,000psi (200 Bar).

Applications

-  AIR
-  HOT WATER
-  OIL
-  COLD WATER
-  DIESEL

Features and Benefits

- Reduced recoil speed can be adjusted on site
- Constructed in heavy duty powder coated mild steel
- Twin pedestal design
- Full width roller guide assembly
- Optional pivoting wall brackets
- 90°C working temperature
- 3,000psi (200 Bar) working pressure
- 400 and 600 Bar upgrades available
- Ribbed side arms for extra rigidity
- Externally mounted swivel assembly
- Latching of hose assembly at any desired length
- Long term spare parts availability
- 12 month manufacturer's warranty
- Supplied as a bare reel (hose at extra cost)
- Also available as 1" version
