

LED Telescopic Light, 110V

TRIS20LED

- This new LED tripod, with 1 x 20W LED, produces similar output to a 500W tungsten halogen lamp but uses just a fraction of the power draw
- Tough metal cages cover the lens for safety and protection
- Mounted on a robust height adjustable and collapsible tripod with handle for easy storage
- Two twist grip locks enable the tripod height to be quickly adjusted between 725mm and 1,415mm
- 110V
- Robust steel adjustable tripod with IP65 light fittings
- 1 x 20W LED heads
- Metal guards
- Three metre lead and 16A plug, IP44
- Weight: 6.10kg
- 1800 lumens
