

P3L LITE COALESCING/ADSORBER FILTER - P3LF SERIES - PNEUMATIC DIVISION EUROPE

P3LF is a 40mm lightweight coalescing/adsorber filter, 1/4" ported BSPP/NPT, 0.01 μ element, activated carbon element, polycarbonate bowl fitted with manual drain.

PART NUMBER:

P3LFA12APPN

Specifications

Micron Rating (MM)

Adsorber

Port Size

1/4 inch

Port Type

BSPP

Housing Material

High Tech Polymer

Body Material

High Tech Polymer

Bowl Material

Polycarbonate

Element

Absorber

Filter Element

Activated Carbon

Seal Material

Nitrile

Working Temperature

0°C to +50°C (32°F to 122°F)

Maximum Working Pressure

10(Bar) 150(PSIG)

Maximum Flow Rate

13(SCFM) 6(DM3/S) 21.6(M3/H)

Weight

0.11(KG)

0.24(LB)
